

### Introducing the BEST IQ Challenge 2022!

The BEST IQ Challenge tests your skills in mathematics, science, and engineering, combining these skills with your software coding skills using MathWorks MATLAB. Through this challenge you will sharpen your coding skills along with your technical skills.

...Solve problems of your own choosing at your own pace.

...Earn points for each correct solution. Earn bonus points for badges and improving solutions.

...Submit solutions as many times as desired. There is no penalty for incorrect solutions.

...Earn badges and rise to the top of the leaderboard by solving more problems than your BEST friends and competitors.

...Earn national recognition as having the BEST IQ in the nation, capture the national award and other MathWorks swag!

**September 10 - November 26**

Anyone can participate but only students will be eligible for the leaderboard.

Complete rules and instructions on joining the challenge are available through your Team Workflow on Sep 10<sup>th</sup>.

Mechanics
Algebra
Electrical
